Translating

Translate this paragraph into Spanish:

I go to a big school that has a lot of facilities. For example, there is a clean library, a good gym and lots of classrooms. Also, we have lots of ICT suites and some laboratories. However, the bad thing is that there isn't a playground nor somewhere to play. Before, my school had lots of green spaces and it was very relaxing but nowadays, I think that it is too demanding. Also, there was a football pitch and a small tennis court. I preferred my school before because it was a lot better. In my opinion my school is too big and a bit dirty too. In the future I would like more green spaces and a swimming pool because I like to swim.
