

## My OAA Experience

By Jack

I went to the garage and put on my jacket.

We were all excited, we made a racket.

It was a very cold and windy day.

Down to the woods I made my way.

Then to the moor I was shaken to the core,

dodging the poo and hearing the sheep.

There were lots of cars, some gave us a beep!

I scrambled up and around the rocks,

my head, legs and arms took a few knocks.

I did not know what to expect, there was lots of equipment I had to check.

I jumped, swam and splashed, this was my favourite by far,

I had a blast.

There I was in a dark cave

at first I was scared and then I was brave.

Up the mountain I climbed and I climbed

I finally got to the top,

And as it blew past me, the wind chimed.
